

## 2.6 GRUPOS DE RUTAS

```
Route::group(  
    ['prefix' => 'user', 'middleware' => 'auth'],  
    function () {  
        Route::get('/', function () {  
            return '/user';  
        });  
        Route::get('profile', function () {  
            return 'user/profile';  
        });  
    });  
});
```
